- **Increase Your Sales & Exposure to the Industry!**

MySpace has become the #1 social networking forum for Artists, DJs, Songwriters, Producers, Remixers, Filmmakers and Musicians to promote themselves to MILLIONS of potential fans, industry movers & shakers and fans worldwide. But how does an Artist compete to get noticed by fans and labels in the ever growing sea of Artists on MySpace?

If you're an Artist or Label, or are in a band, you are currently seeing the power of MySpace, FaceBook and YouTube social networking (marketing) with your very own eyes. Both make it easy to design your own page, put up your pictures, video and music on your profile, and even getting some friends online to be your friends (fans). You should have already noticed the counters for page views and song plays. If you've looked around on some of the bigger Artist's pages you'll see they have massive amounts of plays, page views and friends, which is what puts them on the top of the MySpace and YouTube charts...

THE **PLAYER PROMOTION** increases traffic to your MySpace PAGE through real and unique ISP visits, which boosts your counter VIEWS, thereby increasing ACTUAL player PLAYS and enabling you to move up the charts. We can also boost your video plays, which will chart them as well. As you should know (but maybe you don't), MySpace charts are considered the top charts for the music industry now, much like Billboard. It's enabled independent artists to compete with the MAJORS! In order to hit the charts you need to increase your page hits (views) and player plays. The more hits and plays you get, the better your chances to hit and move up the charts. We GUARANTEE it works! It also works on **YouTube & FaceBook** for viral campaigns, song and video promotion.

Massive MySpace/YouTube Views, Plays & Friends - GUARANTEED!

***Please note:** As of January 26, 2009, MySpace has blocked ALL Bot or Program generated SONG PLAYS. Be aware that no promoter can deliver these anymore. Further usage may get your profile blocked or deleted. For more information on this, please visit: <http://blog.wired.com/music/2008/07/artists-complai.html>

Here are just some of the benefits of increasing your MySpace or YouTube plays & views:

- Climb the charts!
- Sell more Merchandise!
- Put Yourself in the top 10% of all Artist Rankings!
- Compete with the Major Artists on their turf and at their own game!
- Generate more Friend Requests and comments thereby increasing your exposure!
- Impress Fans, RADIO Programmers & DJs, Agents/Managers, and Record labels!
